

TRANSTAR® CNG

IT'S TIME TO TURN THE CORNER ON SUSTAINABILITY

The International® TranStar® is the greener way to boost your business. Featuring a compressed natural gas engine available through a partnership with Cummins Westport, the TranStar® offers 320 hp and 1,000 lb.-ft. of torque. And with its set-back axle and up to 50-degree wheel cut, TranStar boasts the tightest turning radius on the road, so you can take tighter turns without cutting corners.

What that means for your business is that you get all the maneuverability you want without sacrificing any of the power you need.

TRANSTAR®

INTERNATIONAL® TRANSTAR® WITH ISL G CNG SPECIFICATIONS

GVW

- ▶ 35,000 – 52,000 lbs.

BBC

- ▶ 107"
